UPDATE

Dear Friend,

At this writing, we have just returned from the annual F.U.N. show in Florida with a suitcase full of new purchases, many of which appear in this issue of the Update.

The F.U.N. show generally is considered to be a strong indicator of the direction of the rare coin market for the balance of the year. If that bit of conventional wisdom holds true, then 1989 should be a vigorous and productive year for numismatics.

Trading activity between dealers was brisk – with in-depth support at current price levels – and interest among collectors and investors who attended the show appeared to be at a peak.

I urge you to look through this selection of rare coins and to call a Heritage numismatist to reserve any items of particular interest to you. Many of the coins listed are unique to our inventory and are available for sale on a first-come, first-served basis.

January is an ideal time to plan and budget for your rare coin acquisitions for the year. Keep in mind that our custom financing plans enable you to confirm major purchases at today's price levels and pay for them throughout the course of the year.

Best regards, and I look forward to hearing from you.

Warmly,

Reid Spencer

OUR GUARANTEE

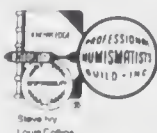

All coins purchased from Heritage Rare Coin Galleries are covered by an unconditional 10-day return privilege.

It is guaranteed that all coins sold are genuine. As proof of our certainty that no counterfeit or altered coin can escape our attention, it is also guaranteed that we will refund the full Heritage purchase price plus 15% interest per year compounded annually on any non-authentic coin sold through Heritage Rare Coin Galleries. If you request auction for liquidation, Heritage Numismatic Auctions, Inc., after acceptance, will catalog your coins at the same grade which you purchased them.

*Each and every coin sold by Heritage is graded at a minimum on both the obverse and reverse, according to the grading standards practiced by the Numismatic Certification Institute (an affiliated company) as outlined in the N.C.I. Grading Guide, except for coins graded by non-affiliated grading services such as PCGS, NGC, INS, or ANACS. It should be understood, however, that grading standards are vague and subject to interpretation which may change and can be influenced by ownership. Because of this, opinions on grading as well as value can and often do differ between experts, third-party pricing guides such as *The Coin Dealer Newsletter* and *Coin World Trends*, and recognized grading services which may employ different standards. Therefore the ability to sell a coin at a price commensurate with listed quotations may depend on the willingness and the financial capabilities of the selling dealer to repurchase the coin based on the listed grades. This Guarantee applies to all purchases after November 14, 1986.*

OFFICE HOURS

Monday-Friday: 8:30 A.M. – 6:00 P.M. – Central Time

HALF CENT

1828 12 Stars PCGS AU55. A lustrous, pleasing example of this scarce and popular variety. It has never been definitely determined whether the 12 Star variety was created by simply mispunching in the wrong number of stars or if something adhered to the die and prevented the 13th star from striking up (as with the 1922-P cents). To date this is the only 12 Star certified in any circulated grade.\$565.00

LARGE CENTS

1794 EF (45/45). S-22, R.1. The Bent Lock variety but the early die state without the mounds on the reverse. A nice chocolate brown with two spots on the reverse.\$1,350.00

1794 NGC MS (62/62). Brown. S-26 R.2, the Sans Hair Variety. A deep chestnut brown. Very lustrous and pleasing overall. Struck on a tight, non-porous planchet that only shows a couple of small planchet flakes out of the field at 7:30 behind the hair on the obverse. Not too surprisingly this is the only brown uncirculated 1794 graded to date.\$6,125.00

1810 VF (30/30). Choice for the grade with strong olive tints seen throughout the brown. Good details for the grade.\$450.00

1850 PCGS MS63(PQ). Red and Brown. A common and affordable date in the Braided series. To date some 11 pieces have been graded 63 Red and Brown. This coin has lots of the original "fire" remaining.\$405.00

1852 PCGS MS64(PQ). Red and Brown. Just about 50% of the red remains. Sharply struck central details. To date only 12 have been graded 64 R&B.\$625.00

1856 PCGS MS63. Brown.\$355.00

INDIAN CENTS

1863 PCGS MS63. Bright surfaces with a full strike, even to the tips of the feathers. Semi-prooflike on the reverse.\$240.00

1871 PCGS PR64. Red and Brown. ..\$480.00

1877 PCGS MS65. Red and Brown. Although designated as Red and Brown this coin has a lot of zip. The original red luster has subdued a couple of shades from the fiery orange-red of the year of issuance and there are scattered brown highlights on the devices. One of only five coins so graded of this rare, low mintage date.\$3,625.00

1877 PCGS PR63. Red and Brown. Bright and flashy with light subtle iridescence. An affordable alternative to a mint state coin. Only seven others have been so graded to date. \$2,125.00

1883 PCGS MS64. Red. This "common" date has only had 16 other coins certified in 64 Red.\$165.00

1884 PCGS PR64. Red. Deep cherry red and problem-free.\$450.00

1895 PCGS MS65. Red. Fully struck. A nice, original coin with no noticeable problems. One of only eight coins graded 65 to date. \$625.00

1898 MS (64/64). Red. Full strike. ..\$135.00

1903 PCGS MS64. Red. Fully struck. One of only 47 so graded.\$155.00

1904 PCGS MS65. Red and Brown. A nice, original coin with just a slight darkening of the original red luster. Only 13 others so graded to date.\$215.00

LINCOLN CENTS

1909 V.D.B. PCGS MS66. Red. An absolutely amazing coin. You could try and call as soon as you receive this mailing but don't count on this still being in stock.\$150.00

1909 PCGS MS65. Red and Brown. ..\$63.00

1909-S V.D.B. PCGS MS64. Red. Great original luster.\$1,000.00

1911 PCGS PR64. Red and Brown. One of 21 so graded to date. Scarce.\$490.00

1913 PCGS PR63. Red and Brown. Bright reflectivity in the fields. Only 11 others graded 63 R&B so far.\$440.00

1913 PCGS PR64. Brown. The predominant brown shows an underlying violet-blue. Only seven others have been graded so to date. \$315.00

1915 PCGS MS65. Red and Brown. Only on the obverse does the central device show a concentration of browning, more evenly mixed on the reverse.\$220.00

1917-S PCGS MS65. Brown. Fully struck with no visible impairments.\$180.00

1917-S PCGS MS65. Red and Brown. Fully struck with significant red remaining. Very scarce with only nine coins graded so far, none in 65 Red.\$230.00

1920-D PCGS MS65. Red. Super surfaces with fiery red centers surrounded by a deeper cherry red at the edges.\$265.00

1921-S PCGS MS64. Red and Brown. Fully struck. Very scarce with only 17 graded in 64 so far, 33 certified in all grades of unc. \$300.00

1926 PCGS MS64. Red.\$50.00

1931-D PCGS MS64. Red and Brown. Scarcer, underrated date.\$95.00

1931-D PCGS MS64. Red. One of only 11 graded to date.\$140.00

1931-S PCGS MS64. Red. Popular low mintage date.\$150.00

1931-S PCGS MS65. Red. A bright, flaming red, original example of this scarce issue. \$250.00

1940 PCGS PR65. Red. Neat coin. ..\$275.00

1972/72 Doubled Die PCGS MS65. Red. A real blazer.\$345.00

TWO CENT PIECES

1864 Small Motto PCGS MS63. Brown. Pleasing mellowed brown surfaces. Nicely struck and one of only six so graded to date. ..\$1,065.00

1865 PCGS MS63. Red and Brown. Mostly brown with significant areas of underlying red luster around the devices.\$165.00

1870 PCGS MS60. Brown. Scarcer date with only 861,250 minted.\$175.00

1873 Closed 3 PCGS PR65. Red and Brown. Still mostly red throughout with the original surfaces showing a slight mellowing of color, just enough so it cannot be called Full Red. The Closed 3 is the more common of the two varieties of this final year of two-cent production but there have only been twelve others so graded by PCGS to date.\$3,550.00

THREE CENT NICKELS

1866 PCGS MS63. Brilliant and a very affordable type coin.\$240.00

1866 PCGS PR63. Mostly brilliant with a light rose tinted tone on either side.\$660.00

1866 PCGS PR64. One of the very scarce early proofs in this series. The 1865-69 proofs would make an affordable and challenging series to collect. Only 23 others have been so graded to date out of an original estimated mintage of 725.\$1,125.00

1867 PCGS PR64. A lovely coin for the grade with a noticeable cameo contrast on each side. Mostly brilliant with a faint suggestion of a light golden tone on the high points of the devices. Very seldom seen with an original estimated mintage of 625. To date only 25 have been graded 64 by PCGS.\$940.00

1872 PCGS MS63. Lustrous.\$250.00

1874 PCGS PR64. Mostly brilliant and deeply mirrored. Only 36 others graded to date. \$830.00

1876 PCGS PR63. Brilliant.\$420.00

1881 PCGS PR65(PQ). Brilliant and nicely cameoed. Close to 66 quality.\$2,000.00

1884 PCGS MS64. One of the very rare business strikes from this year. The original mintage of 1,700 has not supplied the coin market with anywhere near enough business strikes for collectors, and over the years dull proofs have been substituted. To date only four other coins have been graded 64.\$2,240.00

1886 PCGS PR64. Brilliant.\$1,275.00

1886 PCGS PR65. Brilliant and deeply mirrored. Very flashy.\$2,065.00

SEATED HALF DIMES

1853 Arrows PCGS MS62. A bit washed out in the luster department but partly compensated for by the lovely patches of toning beginning to accrue to the outer edges of each side. Fully struck. A scarce and essential type coin. To date only 20 coins have been graded 62. ..\$195.00

1860 PCGS MS65(PQ). Thick, blazing luster and fully struck throughout. Pearl grey with just a touch of darker color at the rims. The second most common date in the legend obverse series but that must be tempered by knowing that there are only 22 coins of this date graded so. \$3,065.00

1864 PCGS PR63. Brilliant and fully struck with a few small contact marks in the fields on both sides.\$1,550.00

1873 PCGS PR64(PQ). Scarce final year of issue. Toned in a splashy rainbow of colors. Only 24 graded 64 and 13 in 65.\$1,375.00

SHIELD NICKELS

1867 Rays PCGS MS62. Very sharply struck.\$265.00

1869 MS (62/62). Lightly cleaned once, otherwise a choice coin.\$125.00

1872 PCGS PR65. Brilliant with a rather pronounced cameo contrast between the fields and devices. One of only 20 so graded to date.\$1,940.00

1875 PCGS PR63. Brilliant and deeply mirrored.\$425.00

1878 PCGS PR65. The coin has an unusual satiny luster rather than the usual prooflike reflectivity. This is the sort of coin that, in the past, was sold as an unlisted business strike. Only 2,350 proofs originally minted, none as business strikes. 86 others have been certified as 65 by PCGS.\$2,440.00

1883 PCGS MS63. Clean surfaces and brilliant on the obverse with a few light streaks of golden over the reverse. All four digits of the date show traces of an earlier punching.\$240.00

LIBERTY NICKELS

1883 No Cents PCGS MS63(PQ). ...\$95.00

1887 PCGS PR62. Light golden toning. \$205.00

1889 PCGS MS63. Sharply struck and evenly toned.\$175.00

1891 PCGS PR63(PQ). Brilliant and deeply mirrored. Sharp for the grade.\$345.00

1892 PCGS PR64(PQ). Attractive with a light and even golden color over both sides. \$565.00

1900 PCGS MS64. Frosty luster. Despite its large original mintage there have only been 54 coins graded MS-64 of this date. Throughout the series this is a consistent pattern, none of the issues (except the No Cents) have had over 100 coins certified in this grade.\$495.00

1901 PCGS MS63(PQ). Attractive two-tone color.\$190.00

1902 PCGS PR65. Very deeply mirrored and very flashy with a brilliant obverse and an icy-blue color on the reverse.\$1,595.00

1905 PCGS PR64(PQ). Brilliant with a mild cameo contrast.\$550.00

1910 PCGS MS63. Toned.\$165.00

1912 PCGS MS63. Strongly struck with pretty rose and olive tinged luster.\$165.00

1912 PCGS MS63(PQ). Variegated grey and rose patina. Noticeably clean for a 63. ...\$190.00

BUFFALO NICKELS

1913-S Type One PCGS MS63. Lightly toned.\$90.00

1920-D MS (63/63). Lightly and evenly toned and well struck.\$540.00

1924-S PCGS MS64(PQ). Boldly struck and mostly brilliant with a hint of golden color over the highest points of the reverse. One of only 21 graded to date in 64.\$1,565.00

1925-D PCGS MS64(PQ). Fully struck with soft, almost glowing satiny luster. Scarce, only 33 graded to date in 64.\$1,095.00

1930-S PCGS MS65. Quite scarce with only 39 graded to date in 65, none finer. Subdued pearl-grey surfaces with lots of luster.\$525.00

1934-D MS (65/65). Fully struck on the reverse with deep and intriguing olive and golden toning.\$805.00

1935-S PCGS MS65. Golden and lilac toning with great luster. Only 105 coins of this date have made it to the 65 grade.\$275.00

1937 PCGS PR66. Brilliant and highly reflective with no visible imperfections. One of only 72 such coins graded 66 to date. ...\$2,905.00

1938-D PCGS MS65. Fully struck and just a hint of light toning. The perfect type coin from this series.\$58.00

JEFFERSON NICKELS

1939 PCGS PR65. Beautifully toned. \$120.00

1942 Type Two PCGS PR65. Bright golden-yellow patina over both sides. Sharp and original.\$355.00

1952 PCGS PR67. Ooh-la-la! No description needed. This coin will be history by the time you read this.\$155.00

EARLY DIME

1807 EF (45/45). JR-1, R.2 (the only variety of the year). Toned in shades of light lilac and golden. Weak peripheral details as is usually the case on this date, because of the extensive use of this reverse die in 1805 and 1806. \$1,900.00

LIBERTY SEATED DIMES

1842 PCGS MS63. An originally toned and well struck With Stars dime. One of only eight graded in 63 to date.\$575.00

1864 PCGS MS65. Highly lustrous and fully struck with just a hint of pale lilac color on each side. The 1864 is a very rare issue with an original mintage of only 11,000. The number of coins certified to date by PCGS bears out this date's reputation as a rarity in uncirculated, especially the upper grades of unc. To date only six coins have been graded in all conditions of mint state. There are one in 62, one in 63, two in 64 and two in 65. An obvious opportunity for the Seated specialist.\$9,775.00

1871 PCGS MS63(PQ). Speckled multi-colored toning. Only three other coins have been graded 63 of this date, a total of nine in all grades of uncirculated.\$590.00

1875 PCGS PR63. Toned a jade green with golden accents.\$740.00

BARBER DIMES

1894 PCGS PR65. Lightly and attractively toned over the deep watery proof fields. One of only 17 coins of this date graded 65 Proof. \$3,250.00

1897 PCGS MS62. Lustrous and almost completely brilliant.\$150.00

1902 PCGS PR63. Much brilliance remains but the fields are tinged with a light golden and blue toning. One of only ten graded 63 so far.\$1,015.00

1905 PCGS MS64(PQ). One of only 14 so graded.\$940.00

1911-S PCGS MS63. Lightly toned around the edges of both sides and fully struck. A scarcer date with only 62 graded in all states of unc., only 10 so far in 63.\$365.00

1913 PCGS MS63. A nice, fully struck and lustrous type coin with light iridescent patina.\$330.00

1916 PCGS MS62. MS-65 luster, just a few obvious marks in the wrong places. ...\$150.00

1916 PCGS MS63. Bright, sparkling luster with a light lilac tint.\$330.00

MERCURY DIMES

1916 MS (64/64). Full Bands.\$68.00

1924-D PCGS MS64. Lustrous and generally brilliant with a light rosy patina on the reverse. Scarcer issue, even without full bands.\$330.00

1934-D MS (64/64). Full Bands. Mottled toning.\$70.00

1937 PCGS MS64. Full Bands. Brilliant. \$31.00

1937 PCGS MS65. Full Bands. Fully struck throughout with bright, sparkling original luster. All these '37-P dimes have come from an original bank-wrapped roll.\$69.00

1937 PCGS MS66. Full Bands. Brilliant, spectacular surfaces with no obvious surface impairments. Neat coin.\$125.00

1939 PCGS PR64. Brilliant.\$305.00

1940 PCGS MS65. Full Bands.\$63.00

1940 PCGS MS66. Full Bands.\$145.00

1940 NGC PR (64/64). Technically a 65 but toned a charcoal-violet.\$355.00

1940-D PCGS MS65. Full Bands. Brilliant.\$63.00

1940-S PCGS MS66. Full Bands. Toned. Only 29 certified to date in 66.\$365.00

1941 PCGS PR64. Brilliant.\$295.00

1941-S PCGS MS65. Full Bands.\$68.00

1942 PCGS PR65. Just beginning to take on a pale lavender tone. The reverse is rotated about 5 degrees which is quite unusual on a proof striking.\$625.00

1942-S PCGS MS66. Full Bands. Very scarce in 66 with only 18 coins to date.\$390.00

1944-D PCGS MS65. Full Bands. ...\$56.00

1944-D PCGS MS67. Full Bands. A blazing immaculate gem. One of only 26 certified to date.\$690.00

1945-S AU (58/58). Error. Full Split Bands. Struck 20% off center at 3 o'clock. Brilliant with just the lightest touch of handling in evidence.\$90.00

TWENTY CENT PIECES

1875-S VF (20/20). Original. Nice for the grade.\$105.00

1875-S EF (40/40). Brilliant.\$150.00

1875-S PCGS MS65. Fully struck with bright, original luster. At various spots around the obverse are light bits of pale golden-brown and blue color. A very scarce type coin in gem. To date only 17 others have been graded MS-65.\$10,315.00

1875-S PCGS MS66(PQ). A stunning coin with very thick, frosty luster that is brilliant on the obverse and showing a pale lilac, blue and rose tinted iridescence. We do not recall having ever seen a finer business strike of this popular and elusive series. One of only five so graded by PCGS of this date with only seven having been graded 66 in the entire series, none are finer.\$16,875.00

EARLY QUARTERS

1796 PCGS AU55. Just the barest bit of rub keeps this coin from uncirculated. What signs of friction there are, are well concealed beneath the gunmetal grey toning. The devices on both sides are accented in a deep royal blue. Overall a very attractive and presentable example of the nation's first regular issue quarter dollar, which coincidentally is also a one year of type. The only AU-55 graded to date.\$20,940.00

1818 EF (40/40). B.8, R.1. Originally toned.\$600.00

LIBERTY SEATED QUARTERS

1858 PCGS MS63(PQ). Good central details with several of the stars showing some weakness on their radials. Attractive light toning. One of some 20 coins graded 63 so far.\$940.00

1866 PCGS PR65. Toned in spectacular shades of royal blue, rose and olive over the deep and highly reflective proof fields. A gorgeous specimen of this first year of type coin. Only 11 graded so to date with two in gem. \$2,375.00

1876-CC NGC MS (64/64). An incredibly lovely coin with the bright, sparkling luster normally associated with Carson City silver coins, overlaid by concentric bands of grey, golden, rose and blue toning. Very sharp and highly desirable as a type piece.\$1,595.00

1890 NGC MS (63/63). Fully struck and originally toned in shades of olive and grey. Scarce with an original mintage of only 80,000 business strikes. The Redbook lists the coin's value as \$40 in Good-4. To date NGC has only certified two other coins as 63, PCGS a total of 12 in 63.\$1,250.00

1890 PCGS MS65. One of only eight so graded by PCGS to date. This coin has a beautiful layer of original sea-green, grey and rose tinged toning that is perfectly matched on each side. An outstanding example of this scarce Seated Quarter.\$7,000.00

1891 PCGS PR63. A light, almost imperceptible lilac color clings to both sides. The devices have a rather noticeable cameo contrast against the fields. How many have been graded so far? I thought you would never ask. Only 11 in 63.\$970.00

BARBER QUARTERS

1892 PCGS MS62(PQ). Evenly toned on both sides with good luster for the grade. \$345.00

1892-O PCGS MS64. A perfect type coin. Nothing, absolutely nothing distracts the viewer's attention. An even lilac toning can be seen over each side, the strike is complete and the luster is full and rolls around the coin when it is tilted slightly. To date only 16 other 1892-Os have been graded 64.\$1,565.00

1902-O PCGS MS65. A very rare, and unfortunately an overlooked, coin in today's market with its emphasis on type coins. To be able to purchase an '02-O at this level, relative to a common date's price, proves that there still are good buys in the coin market. To date only one other has been graded MS-65 and amazingly there is even an MS-66 somewhere. Fully struck with bright frosty luster that is brilliant still over much of the surfaces and surrounded on the obverse by a cinnamon-golden and blue patina. The reverse is just touched by a bit of color at the very bottom, below the eagle, otherwise brilliant.\$4,875.00

1907 PCGS MS61. Brilliant and fully struck.\$240.00

1909 PCGS PR64(PQ). A very attractive later date in this popular series. Only 19 others have been so graded to date. Toned a deep cinnamon brown with some royal blue intermixed around the edges.\$2,190.00

1909 PCGS PR66. The fields appear to be completely free of any hairlines from cleaning and there appear to be no other signs of in-the-mint or out-of-mint imperfections. The toning is a spectacular splash of every color in the rainbow. Both sides are evenly matched and well balanced to each other. To date only five other 1909s have attained the Proof-66 level. ..\$8,125.00

1915 PCGS MS61.\$225.00

STANDING LIBERTY QUARTERS

1917 PCGS MS63. Type One. Very attractively and originally toned.\$440.00

1918 PCGS MS65. A beautiful and original quarter with a light dusting of golden-brown toning. Not completely struck in the head area but if a person could assemble a set with this much head detail on each coin it would be quite a magnificent collection.\$1,500.00

1923 NGC MS (65/65). Brilliant with outstanding luster and clean as a whistle and a roundness to the head with just a bit of detail evident there.\$1,565.00

1926-D PCGS MS63. A few small bagmarks but good luster.\$215.00

1930-S PCGS MS62.\$215.00

WASHINGTON QUARTERS

1936 PCGS MS66. Original with hardly any color. Only 15 others have made it to the 66 level of this common date, giving some indication of this series true rarity in high grade. ..\$300.00

1936-S PCGS MS65. Brilliant.\$245.00

1939 PCGS PR65. Brilliant. Only 171 others have been graded 65 to date out of an original mintage of 8,795.\$475.00

1940-D PCGS MS64. Lightly and originally toned.\$75.00

1950 PCGS PR65. Brilliant with good depth of mirrors for a 1950.\$175.00

1950 PCGS PR66. The original brilliance is just beginning to show a bit of light peripheral color.\$250.00

EARLY HALF

1837 NGC MS (63/63). The Reeded Edge half dollar is a coin that has often been overlooked by type collectors, probably because of its superficial similarity to the previous Bust design. Not only is the design different, but the coins were struck on the new steam presses brought into the mint in 1836, they also, as their name implies, have reeded edges rather than the lettered edges of the previous type. To date only 10 other MS-63s have been certified of this date with a total of 39 in all grades of uncirculated. \$2,815.00

LIBERTY SEATED HALVES

1840 PCGS MS65. Reverse of 1839. Very sharply struck with much obverse brilliance and a tinge of peripheral golden color. The reverse is more evenly toned. The reverse lettering is of the smaller variety that was first used in 1839 and continued on certain halves on through 1841. The date shows to have been repunched on the 40, as mentioned in Breen 4750. Quite scarce. This is the only MS-65 certified to date. Only eight others have been certified in all other conditions of mint state.\$11,565.00

1853 AU (55/55). Arrows and Rays. A "crusty" old coin that is totally original with deep charcoal accents around the peripheral details and other devices. Sharp.\$675.00

1861-O PCGS MS63(PQ). Fully struck with an even golden toning over each side. Only seven others have been graded 63 to date. \$1,315.00

1877 PCGS MS65(PQ). Thick, satiny luster and sharply struck. A beautiful and original Seated Half with no problems or visual distractions. Although the 1877 is considered a common date in the series, to date only four other coins have been certified in 65.\$6,065.00

1877-S PCGS MS63. Fully struck on a lightly striated planchet and showing a faint semi-prooflikeness as a result. Generally brilliant throughout with a light golden color outlining the devices on both sides. A total of 15 coins have been so graded to date.\$940.00

1883 PCGS PR65. Toned a golden-rose and blue with very deep, reflective mirrors leaving no doubt about the proof status of this coin. Only six others graded 65 to date out of an original total mintage of only 9,039.\$7,290.00

1884 PCGS PR64(PQ). Deeply mirrored with a moderate cameo contrast on each side. A low mintage date with a total output of 5,275, of which only 875 were proofs. There has always been strong date pressure on these proofs due to the smallest business strike mintage back to 1797. Only 19 others certified to date. \$3,625.00

BARBER HALVES

1893 PCGS MS63(PQ). Sharply struck with good luster and just a touch of light toning. A premium type coin for the grade. Only five others have been graded 63 despite this issue's reputation as a common date. Common? Common compared to what?\$1,375.00

1894-O PCGS MS64(PQ). Thick, swirling luster with an incredible full strike on both sides including the eagle's talons. There is just the vaguest hint of light color on each side. Not an especially rare date but one which is not often seen fully struck. One of only 13 MS-64s of this date.\$2,500.00

1904-S PCGS MS64(PQ). Beautifully toned in iridescent shades of sea-green, blue and rose over the basic medium grey. Very attractive and fully struck. A low mintage date with an original output of only 553,038. To date this is THE ONLY COIN GRADED IN ANY CONDITION OF MINT STATE by PCGS. Of great and obvious rarity to the Barber specialist. \$7,500.00

1905 PCGS MS66. This lovely coin is a perfect example of how a 66 coin does not have to actually BE nicer than a 65 one, it just has to LOOK nicer. The surfaces and strike are comparable to a nice, upper-end 65 coin, but the luster and original toning are what really set it apart. It is all but impossible to describe such color and the way the luster blazes around the coin under a light or in a dimly lit room. Those numismatists familiar with type coins in high grade or those few familiar with this series all will recognize how rare Barber Halves are above 65. After having graded 847,473 coins in just over three years PCGS certainly recognizes their rarity also. To date they have only graded 36 coins 66 in the entire series. Only one other is graded 66 of this date.\$12,190.00

1905 PCGS PR64(PQ). A great deal more eye appeal than one would imagine for a coin toned in deep shades of violet and blue. That is probably because of the mostly untuned area at the top of the reverse among the stars which tends to be a visual focal point. A not-so-common date with an extant population of some 25 coins in this grade.\$3,000.00

1911-D PCGS MS63(PQ). One of the more common of the late date mintmarked issues but definitely scarcer than a comparable Philadelphia coin. To date only five others have been graded 63 with 27 in all grades of uncirculated.\$1,375.00

1912-D PCGS MS66. Toned in a speckled golden-red color over both sides with soft, satiny luster. Almost completely struck up in all areas. For some reason the third star is flat, perhaps something adhered to the die and prevented it from striking up. To date this is THE ONLY MS-66 of this issue and it is so recently certified that it doesn't appear yet on the December Population Report.\$10,315.00

1913-S PCGS MS65. Bright, coruscating luster with a full, hammered, medal-like strike. Really a sharp looking coin and a fairly scarce one at that. Only four others have been graded 65 to date, none finer.\$7,400.00

1914 PCGS MS63. Brilliant with terrific luster. A very scarce, low mintage date with an original output of only 124,000. To date only seven others have been graded 63, a total of 20 in all grades of unc. and none better than 64. ...\$1,565.00

1915-D NGC MS (64/64). Brilliant and exceptionally lustrous with a full strike. One of only six graded to date by NGC.\$2,350.00

WALKING LIBERTY HALVES

1917-D Obverse PCGS MS63. Toned. Only 28 graded in total in 63 of this issue. Very scarce.\$640.00

1917-S Obverse PCGS MS64(PQ). Probably one of the finest known of this rare, early date. Thick satiny luster with a slight granularity. Brilliant except on the highpoints which are accented by a light yellow color. The Population Report from PCGS shows that only eight others have been so graded with none in gem or better. A seldomly offered opportunity for the specialist in this popular series.\$4,500.00

1929-S PCGS MS64(PQ). An amazingly sharp strike for this usually weak issue. Mostly brilliant with smooth satiny surfaces. A very scarce and often overlooked issue. To date only 36 have been graded 64.\$765.00

1934 PCGS MS63.\$90.00

1934 PCGS MS65. Superb original surfaces that are mostly untuned but show a faint glimmer of pale iridescence. Also from an original roll are the 1937 P dime.\$525.00

1934-D PCGS MS65. Full central detailing with some softness on the head. Brilliant except for a light band of golden-brown around the outer edge of each side.\$1,625.00

1935-D PCGS MS64. Sharply struck for the issue and brilliant.\$425.00

1935-S PCGS MS64. Very sharply struck. ...\$405.00

1942-D PCGS MS64. Sharp.\$150.00

1943 PCGS MS64. Fully struck with great original luster.\$135.00

1943-D PCGS MS66. Thick, satiny luster and of course fully struck. To date only 83 other coins have received the 66 grade.\$970.00

1943-S PCGS MS64. Brilliant and as fully struck as a Philadelphia coin. A rare coin with a full strike (third toughest in the short set from '41-'47) and a terrific value in this price range.\$155.00

1944-D PCGS MS64. Fully struck with bright lustrous surfaces.\$140.00

1944-D PCGS MS65. An original, brilliant coin with just a bit of light peripheral golden color around the rims. A good looking coin with nice luster.\$370.00

1944-S MS (64/64). Brilliant and sharply struck.\$155.00

1945 PCGS MS63.\$80.00

1945-S PCGS MS64(PQ). Not quite sharply struck enough for 65 but certainly clean enough.\$150.00

1945-S PCGS MS65. Sharply struck and lightly toned. Some 460 have been graded 65 to date, the main variable being strike among those so graded.\$370.00

1945-S PCGS MS65. Sharply struck, almost fully so, with brilliant surfaces and a bit of light die polishing in the fields.\$370.00

1946 PCGS MS64. Sharp overall. ...\$140.00

1946-D PCGS MS64. A brilliant, frosty coin taken from the interior of an original roll.\$140.00

1946-D PCGS MS65. A common date in the short set with that attractive, low mintage of only 2.1 million.\$370.00

1946-D PCGS MS66. Although the '46-D is a common date in the lower grades the number of certified pieces drops off dramatically above 65. In 65 there have been 1328 coin graded but in 66 only 39 and none higher. Very attractive and clean.\$1,155.00

1946-S PCGS MS63. Toned.\$80.00

LIBERTY SEATED DOLLAR

1860-O PCGS MS60. Brilliant and sharply struck. Obviously from the original bags of dollars released by the Treasury in 1962.\$1,000.00

TRADE DOLLARS

1876-S PCGS MS60. Fully struck with beautiful light toning.\$595.00

1878 PCGS PR64(PQ). Deeply toned in shades of blue, rose, citrine and grey-olive. The deeply mirrored proof fields flash strongly through the toning though and tend to enhance the visual impact of this beautifully designed coin. First of the late proof-only years, the 1878 has an original mintage of only 900 pieces. Of that number only 19 have been graded Proof-64 to date.\$6,875.00

1881 PCGS PR64. Toned a toasty golden brown on both sides with vague bits of blue just at the rims. Only 1,987 coins were minted in all, all proofs. To date only 46 coins have been certified as 64 Proof. Very scarce and desirable. \$6,250.00

1879 PCGS MS66(PQ). A beautiful frosty dollar with a full strike and gobs of eye appeal. Were you to cover the area of the mintmark, most would tell you this is a San Francisco coin because of the pronounced luster. It is really hard to imagine a finer '79-P. The Population Report indicates that a second one has been graded 66 but we suspect if the truth were known that second coin is a resubmission of this same coin in hopes of getting a 67 grade. ...\$10,315.00

1890-CC NGC MS (63/63). Brilliant and fully struck.\$425.00

1893-CC PCGS MS63(PQ). Fully struck, yes, fully struck. The strike looks just like an '81-S. A remarkable coin that only has 36 peers to date according to the most recent Population Report. None could have a better strike than this one.\$3,750.00

1894-S PCGS MS63. Brilliant with an absolute razor sharp strike.\$615.00

1895-O EF (45/45). Cleaned.\$170.00

1896-S PCGS MS64(PQ). Strongly struck with full, frosty luster. Despite a large original mintage of 5 million the '96-S is a very scarce coin in uncirculated. To date only 30 coins have been certified in MS-64.\$4,565.00

1897-S PCGS MS67. An almost perfect dollar. While the '97-S can be located in choice condition, this quality is almost unheard of. 1921 PCGS MS64. Fully struck and highly
lustrous. Plenty cheap at these prices. \$125.00

1921-S PCGS MS65(PQ). An incredibly rare
coin in gem condition despite its huge mintage
of some 21,695,000 pieces. Like all the other 1921
issues, most saw limited circulation and those
that didn't have been treated like the unwanted
stepchildren of silver dollars. Even today when
mixed date rolls are traded, the advertiser is
careful to note "No 1921s". Dollar collectors,
not hoarders and mintage studiers, have long
noted the excessive rarity of the 1921-S, the rarest
of all three issues from that year. This coin is
very sharply struck, even on the wreath, and is
toned a light golden patina. To date only 25 have
made it to the MS-65 grade by PCGS standards,
or another way to look at it, that's .000001152%
of the original mintage.\$4,065.00

QUARTER EAGLES

1836 PCGS AU58. The popular Classic design
in a somewhat better date. Very difficult in true
AU or better. Only 16 others have been graded
in all conditions of circulated and only three
others have been graded 58.\$1,375.00

1851 PCGS MS63. Despite its being classed as
a common date there have only been six others
graded MS-63 to date, none finer. Very sharply
struck and original.\$1,875.00

1853-D PCGS AU50. Very rare in any grade with
an original mintage of only 3,178 coins. Good
remaining luster and no noticeable marks save
one on the reverse, a small planchet flake, in the
left field out from the juncture of the eagle's leg
and wing. One of only five graded in all grades
to date, none are certified yet in unc. \$3,125.00

1861 AU (50/50). Reverse of 1859. A very scarce
variety where the reverse hub of 1859 was used
after new dies had been cut. Apparently only a
few coins were minted using this hub as only a
handful have surfaced over the past several years
since its discovery.\$1,650.00

1904 MS (62/62). Fully struck.\$660.00

1907 PCGS MS62. Full strike. Good date for a
type set.\$815.00

1908 PCGS MS63. First year of the new Indian
design.\$1,315.00

1913 PCGS MS62(PQ). Bright and lustrous. Ap-
pears nicer than the usual low-end unc. \$700.00

1913 PCGS MS63. One of only 61 coins graded
63 to date.\$1,315.00

1925-D PCGS MS61.\$440.00

1926 MS (65/65). Deeper reddish-coppery ting-
ed luster with smooth, virtually unblemished
surfaces. A very nice gem example of this com-
mon date Indian quarter eagle. ...\$7,220.00

1929 PCGS MS63. Super lustrous. \$1,315.00

THREE DOLLAR GOLD

1860 PCGS AU50. A very scarce coin in a series
replete with rarities. The original mintage was
a mere 7,036 pieces. Of that number most must
have seen circulation as only ten have been cer-
tified in any grade of uncirculated. An equal
number have been certified in all circulated
grades. Good luster and well struck. \$1,565.00

1878 PCGS AU55. Common date for type pur-
poses with good luster and a full strike. \$1,650.00

HALF EAGLES

1861 PCGS AU55. Fully struck. Missing just a
bit of luster in the fields, otherwise a 63. \$595.00

1881 PCGS MS60.\$265.00

1881 PCGS MS61. Fully struck.\$295.00

1881 PCGS MS62(PQ). The common date for
the type but a date with only 73 others graded
MS-62 so far. Sharp with rich orange patina
around the rims.\$815.00

1900 MS (63/63). Popular turn of the century
date.\$1,200.00

1904 MS (65/63). Quite a good value in a gold
type coin with a gem obverse.\$2,400.00

1908 PCGS MS60. Indian.\$830.00

1910 PCGS AU58. A nice, presentable slider of
this common date.\$345.00

1911 PCGS AU58. Clean and looks unc. at first
glance.\$345.00

1911 MS (61/61). Scarcer in the better grades.
.....\$1,050.00

1911 PCGS MS64(PQ). One of the more easily
obtainable issues in this very difficult series,
although it is quite elusive in 64 and better (on-
ly 30 others have been graded 64, two 65). The
strike is as close to full as one can ever reasonably
expect to find on this issue. There are a few
feathers in the headdress that have a bit of strik-
ing weakness, otherwise the strike is complete.
The color is a medium orange gold and overall
this is a very pleasing coin.\$10,000.00

1912-S AU (58/58). Nice slider.\$435.00

1914-D PCGS MS63(PQ). Fully struck with rich
orange-gold, satiny luster. A very scarce and
underrated issue that almost doesn't exist bet-
ter than MS-63. Even in that grade it is seldom
encountered with PCGS having only certified
19 in that grade, two in 64 and none finer.

EAGLES

1851-O VF (25/25). Evenly worn throughout but above average in its lack of surface marks. \$450.00

1882 PCGS MS60. Bright pinkish tinged luster. Full strike. \$330.00

1891-CC PCGS MS60. Highly lustrous and nowhere near as baggy as most uncs. of this date. \$780.00

1893 PCGS MS62(PQ). Boldly struck with good luster. Only 86 have been graded MS-62 as of December 1. \$845.00

1894 PCGS MS62. Good luster and strike but a few obvious field marks. \$780.00

1899 PCGS MS62(PQ). Sharp and original with great luster. \$845.00

1901 PCGS MS62(PQ). Fully struck. \$845.00

1901-S PCGS MS60. \$330.00

1901-S PCGS MS61(PQ). The strong satiny luster is marred only by a few light, widely scattered abrasions. \$405.00

1901-S PCGS MS62. Fully struck with superb luster as usual for this date. \$780.00

1901-S MS (63/63). An outstanding coin with very bright, coruscating luster that causes the coin to flash and glimmer when held and rotated under a light. Actually, one really doesn't even need a light to see the terrific visual appeal of this piece, the luster just dances around the surfaces. Fully detailed in all areas. .. \$2,885.00

1901-S PCGS MS63. A perfect coin for type purposes with a full strike and uncommonly pronounced luster. \$3,190.00

1901-S PCGS MS63(PQ). Above average quality overall with faint pinkish tinged luster. \$3,500.00

1901-S PCGS MS65. A razor sharp strike with full coruscating luster and remarkably clean surfaces throughout. The 1901-S is without a doubt the most common date in the series of With Motto tens in all grades. But how common is it really? According to the December 1 Population Report (the most current information available at the time of this writing) there are some 65 coins graded MS-65. Quite a few when compared to other dates in the series but when one considers that this is the date a type collector will most likely turn to for a gem Liberty ten it is immediately apparent that 65 coins will not go very far. In fact, when considering whether such a coin is a good investment one need only ask if there are more than 102 collectors of gem gold type—102 being the total number of gem With Motto tens of all dates certified so far. \$11,875.00

1903-S PCGS MS63. Fully struck. \$3,190.00

1906-D PCGS MS64(PQ). A fully struck example with bright, intense, glimmering luster. A very scarce coin with only six others certified in 64, only one finer. \$7,500.00

1907 PCGS MS61. Liberty. Good luster. \$365.00

1907 No Motto MS60. \$690.00

1910-D PCGS MS62. Full strike with a strong orange tint in the luster. \$780.00

1926 PCGS MS61. Sharp strike. \$645.00

1926 PCGS MS62. Good luster. Definitely above average for the grade. \$790.00

1860 AU (50/50). Good luster. \$975.00

1860 MS (60/60). Scarce in uncirculated. Lustrous and sharply struck. \$1,950.00

1861 PCGS AU50. Much better luster than would be expected for the grade. \$815.00

1861 AU (53/53). Sharply struck. \$975.00

1861 MS (60/60). Fully struck but lacking some luster. \$1,425.00

1867 AU (55/55). Prooflike. Original and fully struck with very attractive pink-gold luster. \$1,050.00

1873 Open 3 PCGS MS60. The more common of the two varieties of the year. Sharp for the grade. \$740.00

1873 MS (62/63). Type Two. Sharp overall and like the 1867 above with a light pink caste to the luster. \$1,275.00

1876 PCGS MS60. Type Two. A common date within the type but one with only 13 coins graded MS-60 to date. \$740.00

1885 AU (58/58). A very choice coin with strong semi-prooflike fields and a full strike. The 1885 is very rare and very rarely available. It has an original mintage of only 828 pieces, the lowest mintage of any regular issue save for the 1882 and 1861-P Paquet. A coin for the advanced specialist in U.S. gold. \$21,000.00

1898-S PCGS MS62. \$705.00

1900 PCGS MS62(PQ). Fully struck and highly lustrous. \$765.00

1904 PCGS MS63. Bright golden-orange luster and a full strike. \$1,250.00

1904 PCGS MS63(PQ). Fewer than the average number of marks. \$1,375.00

1904-S PCGS MS60. \$630.00

1904-S PCGS MS61. \$645.00

1904-S PCGS MS62. Only 268 graded so far in MS-62. Not too many for a common date. \$705.00

1907 High Relief NGC MS (63/63). A very pleasing example of this scarce and highly sought after coin that many have called "the most beautiful coin ever minted." Only 33 graded MS-63 to date. \$17,190.00

1907 High Relief NGC MS (64PQ). Wire Edge. A stunning example of this beautiful coin with thick luster and virtually unmarred surfaces. It takes quite some coin to meet NGC's exacting standards for 64, to date only 34 High Reliefs have been so graded. \$28,125.00

1907 Arabic Numerals PCGS MS63. Scarce first year of issue. \$1,155.00

1908 No Motto PCGS MS62. \$655.00

1908 No Motto PCGS MS64. Considered common and priced less than the common dates in the 1920s the No Motto in 64 has approximately one-fourth the number of MS-64s certified as the 1924. Does this make good sense to you? \$1,515.00

1908 No Motto PCGS MS65. Very scarce in gem condition. Of the numerous examples saved of this two year of type coin, very few were of gem quality. According to the December 1 PCGS Population Report there have only been 238 1908s slabbed in MS-65. Compare that number to a true common date such as 1924 or 1927 with 1152 and 705 respectively. This is a true opportunity for the specialist. \$3,375.00

1908-D No Motto PCGS MS60. \$690.00

1908 Motto PCGS MS62. Sharply struck with a fine matte-like surface. \$940.00

1908-D Motto PCGS MS65(PQ). Highly lustrous and fully struck with bright pink centers. To date a total of 25 coins have been certified in 65 of this date and variety. A very scarce and often overlooked issue in this highly collectible series. \$5,000.00

1909-S MS (63/63). A very difficult issue above 62 and rarely seen so fine. Nice original luster and surfaces. \$1,200.00

1910 PCGS MS60. \$650.00

1910 PCGS MS62. Full strike. \$815.00

1910 PCGS MS62(PQ). Fewer marks than would be expected for this grade. \$875.00

1910 PCGS MS63. Good luster and eye appeal for the grade. Scarce, only 53 graded to date. \$1,345.00

1911 PCGS MS64. A very scarce date, especially in better grades. As an example, in 63 only 10 have been certified, in 64 only 16, and in 65 a paltry 3. Fully struck and very attractive. \$5,000.00

1911-D PCGS MS61. Matte-like luster. \$675.00

1911-D PCGS MS64. Fully struck. One of the more common and available of the dates in the teens, but here that means that only 436 coins have been graded and slabbed MS-64. \$1,655.00

1911-D PCGS MS65(PQ). A lovely coin that has full radiant luster, a full strike and no mentionable or detracting flaws. In MS-65 only 104 coins have been certified so far. This is certainly one of the finest of that small group. \$4,190.00

1914-D PCGS MS64(PQ). Booming luster and a full strike. Only 110 others have been graded MS-64 to date. \$1,940.00

1920 PCGS MS62. Better date with only 33 graded so far. \$940.00

1922-S PCGS MS60. Scarcer date, only 13 have been graded MS-60. \$1,250.00

1923 PCGS MS62. \$705.00

1923-D PCGS MS64. The 1923-D perhaps has the most attractive, satiny luster of any date in the 1920s. This one is especially so and also is unusually clean. \$1,655.00

1923-D PCGS MS65(PQ). Fully stuck with the bright, dazzling luster usually seen on this date. This and the '22-S are the only two mintmarked dates in the '20s that can be found in 63 or better for only a nominal premium. To date only 209 have made it to the MS-65 level. \$3,905.00

1924 PCGS MS61. \$665.00

1924 PCGS MS63. The most commonly available Saint in the most popular grade. \$920.00

1924 PCGS MS63(PQ). Somewhat better luster than the usual 63 (and that's saying a lot). \$980.00

1924 PCGS MS64. Outstanding luster and a full strike. These coins have made some very impressive gains over the past three months. \$1,575.00

1924 PCGS MS64(PQ). Above average quality. \$1,700.00

1924 PCGS MS65. An MS-65 Saint is an impressive coin no matter how common the date might be. The strike, luster and freedom from abrasions always make for a beautiful piece. \$3,250.00

1924 PCGS MS65(PQ). Even nicer than the usual 65. \$3,565.00

1925 NGC MS (62PQ). A nice, upper-end coin. \$750.00

1925 California PCGS MS65. The reverse is almost totally brilliant but the obverse is toned in subtle shades of aquamarine and golden-rose. Only 111 coins have made the 65 grade to date, expressed as a percentage of the total mintage that is .0012% in gem condition. \$1,970.00

1936-D Cincinnati PCGS MS66. Spectacular speckled rainbow toning on the obverse paired with a brilliant reverse. One of only 16 so graded. \$3,750.00

1893 Columbian PCGS MS66. A spectacular commemorative and easily the finest Columbian we have seen. The frost is thick and unbroken by any but the tiniest contact marks on the reverse. The obverse appears to have no contact anywhere. The toning on the obverse is the usual deep blue so common to Columbians with a significant area of grey-golden on and behind Columbus' hair. The reverse is mostly brilliant with a thin band of blue clinging just around the outer edge. Only seven other Columbians of 1893 have been graded MS-66 by PCGS to date, out of an original mintage of 1,550,405. A very rare opportunity for the commemorative specialist. \$8,125.00
